

water pump motor shaft

Hanlinrui is a professional China Water Pump Motor Shaft Manufacturers and China Water Pump Motor Shaft suppliers. If you have drawings, just let us do. Professional technical team will be for the problem to alternative solutions for you. Water Pump motor shaft is one type of rotation shaft, material is choosed based on requirement. Similar spares has been made several years. The processing technology quite is mature.

Product Description

Hanlinrui specializes in manufacturing of Water Pump Motor Shaft, as one of the professional China Water Pump Motor Shaft manufacturers and China Water Pump Motor Shaft suppliers, we are strong strength and complete management. Also, we have own exporting license. We mainly deal in making a series of Water Pump Motor Shaft and so on.

Water pump motor shaft is one type of rotation shaft, material is choosed based on requirement. Similar spares has been made several years. The processing technology quite is mature.

For alike CNC service spare parts, we are able to provide professional docking and mass production to achieve sufficient guarantee. Application are used in pumps, bearing machines and other bearing equipment and machinery

1. Food machinery and similar products for fire truck high-speed water pump shaft, the product is made of high quality steel, after heat treatment, CNC turning, CNC milling, precision grinding, jumping around 0.02mm

2. Machining accuracy

roundness	0.001mm
roughness	Ra0.04
straightness	0.001mm
hardness	HRC/HV
precision	Level 6

tolerance	+/-0.002mm
